Aegis Silence

Key Features

-  • Complete shielding
-  • Remote control switch
-  • Safe and Undetectable
-  • Flexible and portable
-  • Multi-angle acoustic shielding design

Product Description

Hidden as a power bank, it effectively blocks mobile phones, voice recorders and other portable recording devices. With multi-angle acoustic shielding, ultrasonic interference (ear-imperceptible, radiation-free), 7000mAh battery (for long standby and charging), and remote control for easy operation.

* The technical specifications of this product are subject to change without notice.

Specifications

Basic parameters

Product Dimensions	169*80*36mm
Product net weight	0.5kg
Battery Type	lithium batteries
I/O interface	Type-C、 USB

Functional parameters

Interference angle	Horizontal 180°
Interference distance	2 meters @ sound source 70dB
Control method	Buttons/Remote Control
Interference target	Cell phones, voice recorders, eavesdropping devices, cameras, and other audio pickup devices
Remote control control distance	Approximately 2-3 meters (unobstructed)

Running parameters

Battery capacity	7000mAh
Battery life	4.5h
Charging time	4.0h
Type-C Input	5VDC1.5A
USB-A1 output/Output	5VDC2.5A
USB-A2 output/Output	5VDC2.5A
Total output	5VDC2.5A
Rated energy	51.8Wh

Product reliability

Operating temperature	-20°C~45°C
Humidity	45%, non-condensing
