Top-Tier 50MP Samsung JN1 AI Front Camera

Perfect Shot, Every Time

Capture your best self with the 50MP Samsung JN1 AI front camera. Whether you're snapping selfies or video chatting, enjoy crystal-clear, vibrant photos every time. With smart AI enhancements, you'll get perfect lighting, rich colors, and sharp details effortlessly—making every shot picture-perfect, no matter where you are.

Ultra-Clear 20MP Sony Night Vision Camera

Own the Night Capture the Unseen

Capture stunning visuals in the darkest environments with the 20MP night vision camera. Ideal for outdoor adventures, nighttime activities, and security monitoring, it delivers clear, high-resolution images in low-light scenarios where the human eye sees almost nothing.

AI Google Lens

See More. Know More.

Unlock endless possibilities with just a tap. From translating text and identifying plants to shopping for products and finding recipes, with AI Google Lens comes in handy.

Explore Similar-style Items

Easily discover more style-similar items and enhance your shopping experience.

Real-time Translation

While traveling abroad, Google Lens can translate text on street signs, menus, and signs in real-time.

Recognize Plants and Animals

Identify a variety of plants and animals, providing information about them.

Solving Homework Queries

Scan and solve tricky homework problems effortlessly.

Find Points of Interest

Get in-depth information about a location by aiming your camera at landmarks or buildings.

Books, Music, and Movies

Offer relevant reviews, ratings, and purchasing options by scanning them.

No.2 Ultra-Reliable Rugged Design with Top-Tier Military-Grade Materials Ready for Any Rugged Challenge!

Fear No Darkness with 400lm Super Bright Camping Lantern

400 Lumen Super-bright Camping Lantern

As Bright As Daylight

400 lumen super-bright camping lantern offers powerful illumination with practical modes like lighting, sos, and quick flash. It provides bright, wide coverage for clear visibility. Perfect for emergencies or special lighting needs, it's your ideal companion for any environment.

Lighting Mode

Whether you need a gentle glow for reading in your tent, a bright beam for navigating dark trails, or maximum illumination for campsite activities, all three lighting levels are designed to meet your needs.

SOS Mode

In case you get lost or find yourself in an emergency situation, the SOS Mode sends out rapid, intense flashes of light. These powerful signals can attract the attention of rescuers from a distance, increasing your chances of being found quickly and safely.

Quick Flashing Mode

For unexpected situations, the Quick Flashing Mode produces intense bursts of light. Ideal for deterring wildlife, enhancing visibility during night rides, or issuing urgent warnings on the road, this mode ensures you and your companions stay safe in any scenario.

Timing

To extend the lifespan of the camping light, the system allows manual adjustment of the lighting duration. You can easily set a timer for 5 to 30 minutes to automatically turn off the light according to your needs.

Advanced Military-Grade IP68 & IP69K Water and Dust Resistance

From Storms to Streams Active 10 Pro Thrives

Whether it's underwater photography, a sudden downpour, dust storms, or a high-pressure hose, Active 10 Pro handles it all. With IP68 and IP69K ratings, it offers superior protection, staying waterproof in up to 1.5 meters of water for 30 minutes, ensuring top performance in any condition.

Super-Waterproof Underwater Camera

Active 10 Pro ensures that water never dampens your photography adventures, featuring robust underwater camera support. Whether you're capturing creative shots in the pool or intriguing images in a serene lake, the Active 10 Pro enhances your enjoyment and creativity in every aquatic setting.

Top-level MIL-STD-810H Certified

Forged to Conquer Water, Dust and Drops

Upgraded from MIL-SPEC 810G to 810H, **Active 10 Pro** can withstand and survive, even when dropped, submerged, or exposed to extreme temperatures. Whether you're traversing scorching deserts, freezing arctic tundras, or facing torrential downpours, this device will be your reliable partner on your outdoor trips or work. Even if you accidentally drop the tablet while walking briskly, it will remain intact and fully functional.

*Unscathed from a
1.22m Death Broke

Survive a 10-meter Drop

*Can Withstand the
Weight of a 2-ton Vehicle.

*Scratch Resistance:
Corning Gorilla Glass
5 screen with a Mohs
hardness of 7, equivalent
to quartz. It resists
scratches from metal,
glass, branches, stones,
and keys without showing
any marks.

*Actual performance may vary depending on factors such as the surface material, angle of impact, etc.

Drop Resistant Upgrade

Millions of lab tests have validated the four optimal impact-resistant corners with reinforced TPU wave-pattern design. This design further disperses impact forces during drops, enhancing both crash protection and aesthetic appeal, making it both practical and stylish.

After thousands of test experiments, it was found that using a dual-injection molded back cover with TPU + PC + glass fiber hard gel material retains the flexibility and shock absorption of TPU while adding excellent structural strength and corrosion resistance to the back shell.

A rugged unibody design reduces the risk of loosening or cracking, significantly enhancing durability and lifespan.

Exceptionally Resilient from -20°C to +60°C

From Freezing Cold to Scorching Heat, Always Ready

Tested with Thousands of Temperature Cycles, from an Icy -20°C to a Blistering +60°C, Active 10 Pro Stays Tough. Whether you're scaling frozen peaks or crossing scorching deserts, its extreme temperature resistance keeps you connected. Built for ultimate adventure, Active 10 Pro delivers reliable performance in any environment.

Undergone tests that include but are not limited to:

Industry-Leading Glove Mode 2.0

Tailored for professionals such as fishermen, loggers, welders, and soldiers undertaking winter missions, Active 10 Pro ensures **effortless operation even with thick gloves**. Its fast response and high sensitivity make it feel as if you were using bare hands, keeping you focused on your tasks, no matter the conditions.

*Ready for Thicker Gloves

Versatile Rugged Tablet with Adjustable Aluminum Stand

Flexibility Meets Durability—Comfort Anywhere You Go!

Active 10 Pro comes with a convenient storage and portable ultra-light weight durable detachable aluminum alloy stand, supporting 180° adjustment, providing ultimate flexibility. Whether you are outdoor exploring, working in the office, or relaxing at home, you can enjoy an extremely comfortable user experience, making it the ideal companion in your life!
