

Doke **AI** 5G

XPLORE 2 Satellite

**World's First Rugged Smartphone with Satellite Voice Messaging
Never Lose Signal. Always Stay Safe, Wherever You Go.**

Two-Way GEO Satellite Communication | HDR AMOLED 120Hz
Visuals | Dual 50MP Samsung® cameras + 20MP Night
Vision | Ultra HDR | 4K 60FPS HDR10+ Video
Recording | OIS +EIS | 5G Dimensity 8300 with 1.33M+
AnTuTu | Up to 48GB LPDDR5X & 3TB UFS4.0 |
20000mAh Mega Battery & 120w Super-fast
Charging

GEO Satellite Technology

In-Depth Collaboration with Skylo

↑ More Stable

Wide-area coverage, seamless global connection without signal drops.

↑ More Secure

Farther distance minimizes interference, ensuring safe and reliable communication.

↑ More Timely

Optimized ultra-low latency for instant, two-way communication during critical moments.

Industry-leading

120° Ultra-Wide Satellite Alignment Angle

Just a simple lift, and your XPLORE 2 Satellite is instantly connected. Experience faster, more stable, and highly efficient communication, ensuring you stay ahead when every second counts.

Industry's First

Rugged Smartphone with eSIM Support

A Global Revolution in Communication!

Global Communication, Simpler and More Affordable!

Save Money: Cut Roaming Costs by Up to 90%!

Effortlessly switch to local networks, enjoy local rates, and stay connected worldwide at a lower cost!

Save Effort: No Physical SIM, Freedom to Switch Carriers!

No SIM swaps, no hassle—eco-friendly and perfect for seamless global travel!

Stay Connected: Reliable Signal, Always Online!

Global coverage ensures you're connected anytime, anywhere—peace of mind wherever you go!

Stay Connected Anytime, Anywhere!

Travel the World

Explore Freely, Stay Connected!

Business Trips

Cross Borders, Work Smarter!

Outdoor Adventures

Stay Online, Stay Safe!
