Introducing the HARP2 Speech Protector

An extra layer of protection that safeguards the most sensitive discussions within government offices, military operations, and important corporate meetings worldwide.

- SPEECH PROTECTION ✓
- CYBERSECURITY ✓
- PHYSICAL SECURITY ✓
- HUMAN AWARENESS ✓

Safeguard your conversations | Block eavesdroppers | Prevent voice recordings

Advanced Second-Generation Speech Protector

Discreet Mode

Disrupts a wide range of microphones, blocking clear audio capture with superior coverage and greater discretion.

So subtle, it's almost imperceptible during face-to-face conversations.

Voice-Mix Mode

Uses patented tech to mix user-specific voice frequencies with high-definition, personalized audio, creating a customized sound shield.

Renders recordings unintelligible, making forensic AI audio cleaning ineffective.

Superior Coverage | Greater Discretion | Intelligent Audio Defense

GET THE PROTECTION YOU DESERVE

- **Certified by TUV SUD for Health & Safety**
- **3-Year Extended Warranty Included**
- **Designed & Manufactured by Santor® in Canada**

NO PROTECTION
